At Chingford Foundation School we believe that every student should study a broad and balanced curriculum that will both provide preparation for further education and employment and allow room for self-expression and to pursue students own interests.

All students will study: GCSE English Language and English Literature, GCSE Mathematics, GCSE Religious Studies, GCSE Science Double Award – with the option of studying separate sciences, and GCSE French or Spanish, continuing their KS3 language learning*. There will also be 2 lessons a week of PE and a PSHE programme through drop days/assemblies/tutor periods.

All students will study at least one humanities subject. Please tick preference:

[^] Students who opt for the computing and catering courses will be interviewed individually to determine the most appropriate course for their interests and aspirations.

If there is insufficient demand, we are sorry, but we will not be able to offer a course. The structure of the timetable means not all combinations of subjects will be possible, and in this case and in the case of too high demand for courses students will be spoken to individually to resolve the issues.
